Committee Program Activities/Events/Projects:

Membership Services: The role of membership services is evolving with the implementation of the USATFConnect system. Many of the responsibilities of membership services were taken over by the National Office in May 2020 including: membership and club purchases, date of birth verifications, and membership profile updates. Some duties are being released back to the Associations as the USATFConnect system is expanded. For example, National now allows Membership access to process inter-Association club affiliation transfers. Other matters, such as, membership transfers, club renewals, as well as sanction requests, continue to be referred to Membership Services for approval.
